est. 1947

## JANUARY 1992 NEWSLETTER

### OFFICERS

PRESIDENT - N3RR BILL HIDER (301) 424-2707  
VICE PRESIDENT - ND3A BOB SHAPIRO (703) 439-7969  
SECRETARY - AA4XU BEN SHAVER (703) 534-4740  
TREASURER - K1DQV ROGER MINER (301) 421-9848

---

The Potomac Valley Radio Club meets the second Monday of each month, from September through May. Regular business meetings alternate between Northern Virginia and Temple Hills, MD. For directions to the next meeting, see below. Or call any club officer.

**PVRC CHARTER MEMBERS:** W3GRF, W3IKN, W4AAV (SK), W4KFC (SK), W4KFT, N0FFZ, W4LUE, W7YS, VP2VI (W0DX).

Charter Members are not required to pay dues.

**VHF Repeater (K3WX):** Output 147.00 MHz., Input 146.40 MHz.

**UHF Repeater (K3WX):** Output 443.15 MHz., Input 448.15 MHz.

### Packet Cluster Contest/DX System:

145.51 MHz. Connect to W0YVA  
145.57 MHz. Connect to N2FB  
145.59 MHz. Connect to W3LPL  
145.63 MHz. Connect to K3NA  
147.525 MHz. Connect to N4SR

### Next Meeting:

Date: 10 February 1992  
Place: Church of the Nativity  
5203 Manchester Drive  
Temple Hills MD 20748  
Time: 1930 Hours EST

Check with the packet cluster or the repeater for last minute changes, if any.

### DIRECTIONS TO TEMPLE HILLS MEETING:

Take the Capital Beltway to Exit 7-A. Head south on Maryland Route 5 (Branch Avenue) toward Waldorf. Immediately after entering Branch Avenue you will come to a stoplight, which is Manchester Drive. Turn right on Manchester Drive. In the middle of the block on the left hand side, you will notice the Church of the Nativity sign next to the church entrance. Go up the drive to the top and park in the church's parking lot.

Many thanks to Tony Faiola, K3WX, for use of his copier for publishing this Newsletter.

Editor: Fred Laun, K3ZO (301) 899-1235

Production and Circulation Manager: Howard Leake, W6AXX (410) 465-7008

Club Historian: Lawrence T. Fadner, W3GN (301) 725-1624

News Deadline: 20th each month.

## FROM THE PRESIDENT'S SHACK

Happy New Year and congratulations to all PVRCer's who added to our club score in all of the contests during 1991!

Well, the new year always brings some changes, and we've had some changes in the lineup here at the PVRC. Yesterday, 12/30/91, I turned over the PVRC treasurership to Roger, K1DQV. Rob, ND3A, is our new Vice President and we have moved the President's shack to Rockville here at N3RR's QTH. The only sign of stability is our Secretary, Ben, AA4XU.

We even have a new meeting location in Virginia starting at the first 1992 meeting. See the directions to this location elsewhere in this Newsletter. (Editor's note: The new location actually appeared in the December issue since this one came out too late to be in time for the meeting.)

Now let me now make some predictions for 1992:

1. Sunspot Cycle 22 will take another turn upward in 1992 before it slowly decays starting in 1993 and will allow yet another successful DX contest season throughout 1992.

2. Active membership in PVRC will increase by 25%.

3. Because of Item 2, the overall total PVRC score in the four major 1992 DX contests will increase by 30% over the 1991 total score (CQWW and ARRL DX), as computed by WR3E.

4. An array of new (or rejuvenated) awards will be won by 10 new and long-time PVRCers. ("New" is defined as 1 year or less, "long-time" is defined as more than 1 year.) These awards include those issued by the contest sponsors as well as those awarded by PVRC to our own members.

5. Attendance at PVRC monthly meetings (regular and Over-the-Hill-Division) will increase by 25% (as calculated by AA4XU).

6. A recruitment committee consisting of four active PVRC members (who were selected from a group of ten who volunteered at the first 1992 PVRC meeting) will be formed to accomplish Item 2. This committee will not let grass grow under their coax and will actively contact any MD-DC-VA hams who participated in Novice Round-up, Field Day, Sweepstakes, etc., to see if they are interested in joining and contributing to PVRC.

7. An awards committee will be created to establish PVRC awards and issue challenges to PVRC members to enter the various contests and compete to win PVRC awards as part of Item 4.

I have some other projections for 1992, and I'll let you in on them later in the year!

But, let's think about the projections I've just made. In order for them to come true, much effort will be required by all of us.

We cannot do anything about Item 1. But, whether the sunspot cycle continues to increase or not, we all can contribute to the efforts to bring Items 2-7 to reality.

I look forward to this year of challenges at the helm of PVRC and ask you to help me make a 1992 a continuation of the progress we've made in past years in our membership, our contest scores, and our leadership in innovative applications of the various existing and emerging amateur radio contest technologies.

73 es all the best for 1992,

Bill, N3RR

## MUSINGS OF THE EDITOR

We continue to run a little behind schedule with the bulletins but since the December issue carried the correct meeting info for January, there was no imperative to get this out before the January meeting. The February issue, however, will be back on schedule.

Look carefully at the list of members in this issue. Make any corrections that should be made in your listing and send them to the Treasurer. And if you're not paid up for '92, please do so now.

Sorry about the shifting columns in the score listings in the last issue. I am learning a little about the fonts in WordPerfect but have a long way to go. Since we use a "scalable" font for this Newsletter, columns which appear to be lined up on the screen do not turn out to be so when printed out, unless the tab key is used to create the columns. To make a long story short, it is impractical to use the tab key with the score data we have to present, so the easy way out is to use a non-scalable font when presenting information in narrow columns, and we have done so for the SS scores in this issue. Please don't blame Bernie for the out-of-line columns. The columns in the data he passed to me were perfect.

I was over at Maryland Radio the other day on the way to Frank's with TG9AJR to show Juan the W3LPL antenna farm, and purchased the 1992 DX Callbook. I owe the Callbook an apology for a previous column I wrote in this Newsletter. The 1992 version has been updated considerably, with plenty of direct addresses, for example, for the BV's and JT's. The info from Thailand that my friend HS1ABU, Editor of Thailand's CQ Magazine, sent in, was used. With reference to one of my specific complaints, the YD's have been put back in this issue, so I can finally pass my 1989 DX version on to some deserving UA. If you're into QSLing like I am, you won't go wrong by getting hold of this new issue.

With the Packet Cluster now including a VE and W lookup service, I am going to see if I can

get by this year without the U.S. version of the Callbook. Of course the Caribbean, Central American and XE hams are also listed in the W/VE portion (something which the radio clubs in those countries have asked the IARU to try to get changed, by the way) but I'll see whether I can't use last year's book for those.

Speaking of the packet system, I keep hearing complaints from some of my friends, especially those in NCDXA, about the connection with Frankford, et. al. They say that a rare putout generates such an instant pileup these days that the putout does them no good, because they have to fight like hell to get through. They would rather have just the local group on packet, so that we would have all the putouts to just ourselves.

Personally, I have to say I don't agree. Of course I admit that not everyone has the station I do, which helps me get through the piles no matter how big they get. But I find I enjoy the Cluster a lot more when we have the Frankford boys connected - and yes, even more so when we have NJDXA, YCCC, the W8 and VE3 and W5 groups. The constant flow of putouts gives me more variety to choose from and gives a much better idea of the way conditions are running in different parts of the country. On several occasions, putouts from distant areas have alerted me to openings on 6 and 2 meters I wouldn't have known about otherwise. So here's one vote for making the connection as wide and deep as it can be - and congratulations to Frank & Co. for the constant technical innovations which make this possible!

And as one who contributes a lot of putouts to the local system, I find I am much less prone to going to the trouble of searching the bands if there are so few people who can benefit from them. Why is it that I find that such a parochial attitude about putouts, like the one described above, says something unattractive and uncomplimentary about the person who proposes it? Aren't we all better off if we help our fellow DX'ers no matter where they are?
